CALIFORNIA WILL ADOPT SING SING WARDEN'S PLAN

Superintendent Intends to Use Osborne Methods in the Preston School of Industry.

WHITE PLAINS, N. Y., December 24.—Calvin Derrick, superintendent of the Preston School of Industry in California, announces in a letter received by the foreman of the Westchester county grand jury investigating Sing Sing prison that he will endeavor to see that the principles applied there by Warden T. M. Osborne are adopted to the needs of the California prison. Derrick's approval of the Osborne methods is the result of a two-day visit to Sing Sing. He became familiar with prison conditions in this state as head teacher at the Auburn prison prior to 1912 and as a director of the Georgia Junior Republic.

"I will use all my influence in California," Mr. Derrick writes, "to spread the principles of the Mutual Welfare League as I saw it in operation in Sing Sing prison. At Sing Sing I looked in vain for the drawbacks, abuses, dehumanization and riotous conditions which are alleged to be developing in the institution. I cannot find them. I can see much in the way of the better spirit, better discipline, using the term in its true meaning as training rather than punishment. Nowhere else in the country, I feel sure, has a movement been launched which secures so much of uplift, individual development and hope, or which places within the hands of the prisoners themselves the elements of rehabilitation."

WILL INAUGURATE THRIFT SEASON FOR PUPILS HERE

Committee Forms Plans to Encourage School Children to Put Savings in Bank.

Harry V. Haynes, president of the Washington Chapter, American Institute of Banking, and A. L. Howard, manager of the Business High School Savings Bank, F. V. Devereaux of the National Savings and Trust Company and John T. Todd of the National City Bank, met yesterday afternoon to consider plans for inaugurating a thrift season among the school children of Washington for the campaign of 1916. It is now a century since the first savings bank was inaugurated in the United States, and the American Bankers' Association has authorized a campaign of thrift, under charge of the American Institute of Banking.

It was decided to inaugurate the thrift season as soon as possible, although it must be months before it is in full operation. The plan includes the co-operation of every bank in the city, so that the child or parent may make the choice of institution. It does not provide for any payments by children to teachers or school collections, but the pupils are to be brought into direct contact with bank officials and encouraged by the latter to save.

Envelopes for small daily savings will be provided and all savings will receive the usual rates of interest paid by banks on this class of deposits. Thrift will be urged in talks to the pupils and in literature disseminated for this purpose.

CARR FAILS TO DECEIVE SLEUTH A SECOND TIME

Pencil Peddler, "Dead" Five Years Ago, Now "Paralyzed," But Agrees to Leave Town.

"You fooled me once, but never again," said Policeman Edward J. Kelly, now a detective, five years ago when George Carr, a resident of no name place, managed to convince the officer he was dead and dumb. That he could not again be misled by the same individual the officer proved yesterday afternoon when he arrested Carr. This time Carr was apparently paralyzed.

Carr was examined by physicians at Emergency Hospital, according to the detective, and they are said to have declared he ought to be doing hard work instead of selling lead pencils on the street. In the Police Court today, when Carr was charged with being a vagrant, Detective Kelly told Judge Mullooney Carr had regained his speech and hearing since he saw him five years ago. But that now he pretends to be paralyzed. It was suggested that an examination be made by physicians at Washington Asylum Hospital, but Carr expressed a willingness to leave the city, saying he would never return. He left for Richmond, Va. after the court had given him until tonight to leave the city.

SWEDEN IS ANGERED BY GERMAN SEIZURES

Infringement of Territory in Capture of Steamer Cause of Resentment.

STOCKHOLM, via London, December 24.—The capture of the Swedish steamer Hildur by a German submarine has intensified the resentment expressed because of the alleged German infringement of Swedish territory, and the public is inclined to feel this more bitterly than the British seizure of the parcel post.

LONDON, December 24.—The Stockholm correspondent of the Telegram Company sends the following dispatch relative to the steamship Argo, which was captured recently by the Germans and taken into a German port: "The Swedish legation at Berlin reports that the Argo has been released because the capture took place in Swedish territorial waters. The German admiral expressed regret for the violation of Swedish territory."

The Stockholm correspondent of the Morning Post reports that two Swedish steamers and one Norwegian steamship have been captured by submarines and taken into a German port. He states that the capture of the Swedish steamers, was seized off Sand-Hamaren lightship within Swedish territorial limits.

THREATENED INVASION OF TYPHUS FROM MEXICO

Cases in the Capital Number 30,000. American and English Residents Stricken.

In peril of an invasion of typhus across the Mexican border, the public health service, the militant body in fighting disease, has strengthened its border guard. Greater precautions have been ordered of public health surgeons along the border by Surgeon General Blue.

Surgeon C. C. Pierce has been transferred from San Francisco and put in charge of the situation at Laredo, where a quarantine against typhus carrier has been instituted. Extra precautions will be taken at all other gateways into the United States from Mexico.

Reasons of the service have been stationed at all towns along the border. A rigid watchfulness will be observed. All entering the United States from Mexico will be subjected to careful observation. Suspects will be placed in detention camps.

30,000 Cases in Mexico City.

Thirteen members of the American and English colonies in Mexico City are reported down with the fever.

Reports reaching the Red Cross from Mexico City, where 30,000 persons are suffering from the epidemic, have spread to the foreign quarters.

The British ambassador has conferred with Secretary of State Lansing over the situation. The Secretary informed him that Carranza has not yet replied to the request of this government that the new force of the United States and of the Rockefeller Foundation to take charge of the campaign against the fever should be permitted to enter with particular violence.

Red Cross Committee to Meet.

In New York, at the home of Robert De Forest, the executive committee of the Red Cross of which former President Taft is chairman, will meet to discuss the extent to which the American Red Cross can extend aid should Carranza lift the ban he has imposed on that organization.

Officers of the public health service say typhus fever is a natural consequence of war and famine. It is feared that with the increasing influx into the United States of the defeated soldiers of Villa the plague may spread rapidly.

"I beg you to make known to the glorious French army that I am particularly proud to wear this cross in token of the confraternity of arms which unites my army with that of allied France."

PLANNING TO ESTABLISH FRATERNITY HOUSE HERE

Joseph H. Choate Chapter of the Sigma Nu Phi Initiates Three New Members.

Plans for the establishment of a chapter house, or, if more practicable, fraternity house, were discussed at the meeting of the Joseph H. Choate Chapter of the Sigma Nu Phi last night. The only chapter in this city is that of the National University Law School, but committees of the high court of chancery have in hand the prospective establishment of chapters at the Georgetown University and George Washington University Law schools. A flourishing chapter of the fraternity formerly existed at the Georgetown school, and Jo V. Morgan, an alumnus of the school and chapter, now with Douglas, Ruffin & O'Beir, is chairman of the committee to re-establish the chapter. Jarvis Butler, another member of the high court of chancery and secretary to the naval board, is in charge of the negotiations with the Georgetown University. The high court of chancery is the governing body of the fraternity, which enforces the rules of being the only Greek letter fraternity ever chartered by Congress.

Three new members selected last night from the active members is composed of T. O. Klat, chairman; R. H. Morrill, T. W. Griffin, Harold B. Black and W. Gilbert Dent. A committee of attendance also was appointed to cooperate with the alumni, of whom several hundred reside in Washington, and who will be invited to meet monthly with the chapter. This committee is composed of B. W. McLaughlin, D. P. Ault of the Department of Justice and Mortimer C. Lyddane, patent attorney.

Messrs. Clark, Lyddane and Guy Mason, a newspaper correspondent, were initiated into the university last night, after which the chapter adjourned to the National Press Club as the guests of Messrs. Mason, C. L. Houston and Chancellor William Wolf Smith.

CAIRO AGAIN IS REFUSED LICENSE TO SELL LIQUOR

Second Application of Apartment Hotel Management Rejected by the Excise Board.

For the second time this year the excise board today refused a liquor license to the Cairo apartment hotel on Q street between 16th and 17th streets northwest.

Following rejection of the Cairo's application at the beginning of the year, a new application was filed. Three hearings were conducted and evidence was offered to show that the building has more than fifty rooms which are used for hotel purposes, and that the apartments are rented for longer periods.

Thorough Inquiry Ordered.

Testimony given by one of the witnesses to the effect that he had seen a policeman in uniform behind the Cairo bar caused the excise board to make a thorough investigation of this feature.

A. E. Shoemaker, attorney for the Cairo Saloon League, vigorously opposed the application. He claimed that the Cairo is located on a residential street and could not be legally licensed under the Jones-Works law. The application was represented by Attorney Leo P. Harlow.

Little Story for Bedtime

Shadow the Weasel Is a Coward.

A coward's heart oft hidden is by manners fierce and bold. But when the test of courage comes Another tale is told.

HE WAS AFRAID THAT HOOTY THE OWL MIGHT COME ALONG AND CATCH HIM WHERE THERE WAS NO PLACE TO HIDE.

afraid, or some one he isn't quite sure he can whip. He tries to run away. If he finds he cannot do this, then he will fight fiercely.

But every day Shadow the Weasel wouldn't dare to take. It isn't that Peter doesn't know. He does know. If Shadow were in Peter's place he wouldn't dare even leave the dear old Briar Patch. You see at heart he really is a coward.

Just about the time that Peter reached home in the dear old Briar Patch that night when in despair he had asked Prickly Porky the Porcupine to help him escape Shadow the Weasel, just about that very time Hooty the Owl gave up watching the hollow log in which Shadow had escaped from him. Hooty had made up his mind that it wasn't the least bit of use to watch any longer, and he was quite right. So he flew off to another part of the forest.

Shadow the Weasel, with another look at Hooty, really had left the neighborhood, and then with a snarl of anger as he looked up at the watch tower where Hooty had sat so long, he darted into the pile of brush where he knew Peter Rabbit had hid himself just before Hooty had come to the scene. He really expected to find Peter there. You see he was sure that Peter would not dare to leave there while Hooty was on guard. Just imagine how disappointed he was when he found that Peter had managed to get away by running with long jumps.

He followed Peter's tracks through the Green Forest and smiled a hard, cruel smile at the notion how hard he had happened along.

Shadow waited just long enough to make sure that Peter really had left the neighborhood, and then with a snarl of anger as he looked up at the watch tower where Hooty had sat so long, he darted into the pile of brush where he knew Peter Rabbit had hid himself just before Hooty had come to the scene. He really expected to find Peter there. You see he was sure that Peter would not dare to leave there while Hooty was on guard. Just imagine how disappointed he was when he found that Peter had managed to get away by running with long jumps.

"I'll have to run a little farther than I thought, but I'll get him anyway. There isn't a place he can hide from me," he muttered.

He followed Peter's tracks through the Green Forest and smiled a hard, cruel smile at the notion how hard he had happened along.
